## Cassie Johnson, LEED AP Project Manager, Welsh Construction

As a Project Manager, Cassie Johnson oversees tenant improvement projects for Welsh Construction. Her responsibilities include performing the plan review and take-off, soliciting subcontractor bids, awarding contracts, and managing the project schedule and budget throughout the duration of the project. As the primary liaison between the client and the project team, Cassie relies on exceptional interpersonal and organizational skills to keep everyone on the same page and to keep the project on time and within budget.

Cassie completed her degree in Construction Management from Minnesota State University-Mankato in May of 2005. After graduation, Cassie worked as a Project Engineer for the Beck Group in Dallas, Texas. In this position, Cassie oversaw a 690,000 square foot renovation of a business campus in Westlake, Texas. While working for Welsh, Cassie has completed many tenant improvement projects. She has also worked on the Baker Road Corporate Center Building in Minnetonka, MN, which is Welsh Companies new corporate headquarters.

In 2007, Cassie achieved her certification as an LEED Accredited Professional from the U.S. Green Building Council. With this accreditation, she is responsible for the LEED certification of the Baker Road Corporate Center.
