

Mike Kuehn Project Manager

With ten years of experience in design, architecture, and construction, Mike Kuehn joined Welsh Construction in July of 2000. His responsibilities include managing all aspects of base building development and construction, as well as tenant improvement projects. This includes design development, estimating, bidding, scheduling, project management, safety enforcement, and subcontractor and customer relationship management.

Mike's professional responsibilities have included space planning and design, site supervision, estimating and project management. He has worked on a variety of project types including residential, commercial, industrial, healthcare, civic, and multi-dwelling units.

Before joining Welsh, Mike worked at Hammel, Green & Abrahamson as a Designer and Construction Administrator. Prior to that, he worked in West Palm Beach, Florida for Gee & Jensen Architects & Engineers as a Project Architect/Draftsman. Mike has the right mix of experience and knowledge to deliver a smooth, seamless project.
