

## Gamer Packaging

330 South Second Avenue, Suite 895  
Minneapolis, Minnesota

The 10,404 square foot Gamer Packaging tenant build-out included a large reception area, open office space, an employee break room, several private offices and two spacious executive offices featuring a private restroom. Thoughtful planning allows the interior private offices and the open area to have views of the outside. A stately, glass wall separates the conference room space from the main office area. Rich, warm paint colors were used throughout the space to further enhance the corporate image.
