

Long Bayou Villas

Designed for Bella Terra Development
Seminole, Florida

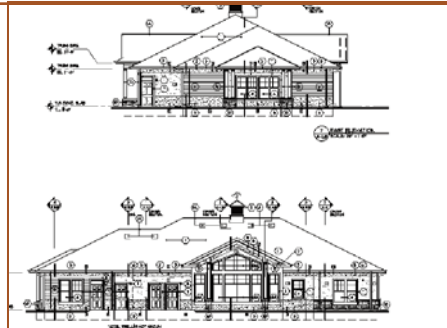

Genesis Architecture designed a series of four different buildings for this 241 unit apartment complex. Each building is two or three stories in height, with individual units of one, two or three bedrooms. The project also includes a guard house, mail kiosk and a common building.

Services Performed:

Site Planning and Urban Design
Architectural Design

Building Features:

Wood frame construction
Slab on grade

Design/Build Format
